## FAIR GUIDE

### Back to the empire of kings and emperors

This year, the focus theme at **Noch** is "Out into the countryside". The Linderhof Royal Palace is one of the highlights of the 2025 programme. It is lovingly modelled on the original down to the last detail and consists of 1007 laser-cut parts. The kit is supplemented by 113 individually modelled 3D printed parts of statues, ornaments, and decorations. The scope of delivery includes the exclusive eight-part figure set consisting of the figures of King Ludwig II of Bavaria, Empress Elisabeth "Sisi", Richard Wagner, two horses, a boy and two swan statues. Special laser-cut adhesive and detailed building instructions are included.

7/B-37

The "Laser-Cut Linderhof Castle H0 Gauge Kit" is expected to be available from November 2025.

### Masterful juggling

Discover the perfect balance of quality and fun with these three high-quality juggling balls as **Schildkröt** (via **MTS/Sport**). Made from hard-wearing yet pleasantly soft PU material, these balls offer an outstanding feel that provides both beginners and advanced players with an unrivalled juggling experience. The balls filled with natural millet have an ideal diameter of approx. 6cm and an optimum weight of approx. 100g.

They guarantee a stable trajectory and a consistent feel with every throw – training not only dexterity but also coordination in a fun way. The juggling balls come in a practical, resealable cardboard storage tube, which keeps them organised and makes them easy to transport.

7A/C-08, C-09

Whether at home, in the park or on the go – these balls are always ready for use and enrich your leisure time with fun and movement.
